DETAILED ACTION

Claims 1-4, 6-11, 13-15, 17, 18, are cancelled.

Claim Rejections – 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 5, 12, 16, 22, are rejected under 35 U.S.C. 102(e) as being anticipated by Simmons.

Regarding claim 5, Simmons shows wherein each cable support basket (Fig. 6) configured and dimensioned such that upon installation in conjunction with the raised floor system, each cable support basket is disposed vertically beneath a corresponding floor panel of the raised floor system (24) (Col. 5, Line 10-25) (Fig. 1, 2, 6).

Regarding claim 12, Simmons shows stringer elements (60) (Fig. 2).

Regarding claim 16, Simmons shows cable support baskets (Fig. 1).

Regarding claim 22, Simmons shows one cable support basket (Fig. 6) including a pair of stringer elements (60) and a plurality of transverse sections (40) extending between the pair of stringer elements (60) and a plurality of pedestal adapters (50) (Fig. 1, 2, 6).

Claim Objections

Art Unit: 3635

Claims 19-21, 23-27, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 7/19/04 have been fully considered but they are not persuasive.

Applicant states that claims 22-27 were allowed in the 4/16/04 Office Action.

Examiner maintains that claims 23-27 were allowable in the 4/16/04 Office Action, and 22 was rejected.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Jette '704 shows a cable support apparatus for a raised floor system. Greenblatt shows a cable support apparatus. Joo shows a tennis ball container. Jette '912 shows a cable support apparatus. Jette '323 shows a flexible cable management system. Jette '870 shows a raised floor system and cable support apparatus. Jette '493 shows a raised floor system and support apparatus. Ohms et al. shows an interlocking cable support tray system. Durin et al. '434 shows a connecting splice for cable through sections and resulting cable through sections. Durin et al. '418 shows a coupling for assembling cable tray unit sections and cable tray unit sections obtained. Durin shows supporting member for lattice structures.
